Experience

Position   : Software Engineer.
Company   : Wipro Technologies.
Duration   : Nov 2020 to Present
Location   : Hyderabad, Telangana.

Professional Expertise

- Provided technical support for clients, resolving issues related to software, hardware, and network systems.
- Proficiently troubleshooted and resolved technical problems, ensuring minimal downtime for clients.
- Collaborated with cross-functional teams to ensure effective problem resolution.
- Demonstrated exceptional knowledge of Java, HTML, CSS, JavaScript, ReactJS, Linux, and Bootstrap to assist clients.
- Maintained and monitored systems to ensure optimal performance.
- Assisted with software deployments, updates, and configurations.
- Documented technical solutions and best practices for internal and external reference.

Certifications and trainings

- Azure Fundamentals - **Microsoft**
- JavaScript - **HackerRank**

Projects

SHOPLANE | **Link**

- Developed a dynamic and responsive E-Commerce Product Details page using JavaScript and jQuery.
- Utilized template literals for improved code readability.
- Implemented features such as image previews, product information display, and a shopping cart with item counting and storage.

Music Player | **Link**

- Developed a dynamic Music Player web application using JavaScript and jQuery to fetch and display songs from an external API.
- Integrated audio playback controls, allowing users to play, pause, skip, and control playback speed.
- Implemented responsive design for a seamless user experience.
- Utilized DOM manipulation to dynamically load song details and cover images, enhancing user interactivity.

RockPapersScissors | **Link**

- Developed an interactive web-based rock-paper-scissors game using HTML, CSS, and JavaScript to engage users in a fun and challenging gaming experience.
- Designed and implemented a user-friendly interface that displays player and computer selections, keeps track of scores, and provides real-time game feedback, enhancing the user experience.
- Programmed the game logic to determine round outcomes (win, lose, or draw) and implemented end-game functionality, providing users with a clear winner and the option to restart the game for continuous entertainment.

Skills

- **Technical Skills**: Java, JavaScript, ReactJS, HTML, CSS, SQL, Linux, Azure
- **Soft Skills**:
  - Excellent communication skills
  - Excellent computer skills, including MS Office, with good typing speed
  - Proficiency in English grammar and spelling (both written and verbal)
- **Languages:** English, Telugu, Hindi.
